PREMIUM

8L, 14L, 30L, and 60 L

COOL +2°C/+8°C

TEMPERATE +15°C/+25°C

FREEZE -21°C

Benefits

- High-performance shipping system made out of polyurethane insulation (PU) and phase change material (PCM), designed for single-use but robust enough for multi-use
- Designed and tested to ensure maximum payload protection in extreme temperatures
- 96 to 120 hours of performance (temperature stability)
- Modular design with optimal payload to external volume ratio to keep distribution and storage costs low
- Simple loading and handling, with one size interchangeable PCMs (between ISOGOS and VYPES)
- Universal Packout configuration for year-round performance
- After preconditioning, store at -21°C, 5°C, or 18°C at any point during transit to set off PCM hibernation mode and extend validation time
